Learning at the Library By Ms. Weber

In library, students have been listening to stories on the Show-Me Award List, Mark Twain Award List, and Building Blocks Award List. These are books recommended by teachers, parents, and librarians in the state of Missouri. It has been amazing to get to read and discuss these books with the students. Kindergarten has had a fun time discussing the Building Block books. First-Third grade have read five of our Show-Me nominated books so far this year and I look forward to sharing more as the year progresses. Fourth and Fifth grade have started listening to one chapter of each of the Mark Twain nominated books and need to read at least four to be able to vote for their favorite in February/March.

Book Fair is coming up! I can't wait to see you all at the bookfair opening October 30-November 3rd!

If you have questions please feel free to email me! weberk@warrencor3.k12.mo.us

HOW TO TALK TO KIDS ABOUT THEIR ART

INSTEAD OF SAYING...	TRY...
What is it?	Tell me about your artwork! (Ask for kids to elaborate about their details instead of assuming their art has to "be" something)
It's so neat!	Your repeating lines/patterns really catch my eye! (Be specific with your comments)
That's a cool idea!	How did you do that? (Engage in a conversation with further questioning)
Put it on the fridge!	What would you like to do with your art? Do you want to give it to someone? Should we display it? (Give students choice and ownership over what to do with their creation)
I love it!	How do you feel about it? Are you a proud artist? (Instead of giving immediate affirmation, ask the kid to identify their feelings about their artwork first)

Positively Awesome PE ***By Coach Westphal***

Please remember to have PE shoes.

All kindergarteners are encouraged to learn how to tie shoes at home. We will be having a class challenge in January to see which class has the most students who can tie shoes.

K-2 graders have been spending time in PE working on Manipulative skills. Manipulative skills involve challenges with bean bags, scarves, hula hoops, balls and foam noodles. These type of challenges work on agility, balance, coordination and reaction time. There are lots of cool tricks your child can show you! Ask your child about "Phys Ed School."

3-5 graders have been working on playground games like rally ball, 2-square & 4-square. Ask your child what all these games have in common. Ask your child what it means to keep a rally score and what is the definition of a "fault" in one of these games.

3-5 graders will also begin working on learning the 5 Health-Related Components of Fitness. These are cardiorespiratory endurance, muscle strength & endurance, flexibility and body composition.

Keep on Moving!
